

XONYX MASSIVE STONE BATHS

XONYX

In Xonyx™ series massive stone baths unite range of designs and the latest Solid Surface technology providing unique mechanical properties. **T**his material is massive, provides for superior structural strength and scratch resistant hard surface. **E**ven with heavy use there is no risk for surface deterioration over time, because of no decor or top layer to wear off. **I**nstead, Xonyx™ baths are casted from homogeneous massive stone mixture. **B**aths are casted using a well engineered mixtured stone mass from resins and various mineral fillers. **D**ue to superior mechanical characteristics Xonyx™ massive stone baths are very durable, and hence highly value adding and environment friendly.
