## Grand Luxe sauna rooms.

Grand Luxe rooms come in the same sizes and basic models as the Classic series. The difference is in the choice of timber – the panelling inside and out, plus all the interior fittings, are in natural blonde aspen.

Here too, you can give free rein to your imagination or adapt the exterior to your existing decoration. All you need is a little woodstain, for example.

The welcoming glass door, which can be hung to open either left or right, has a beautifully finished wooden handle and is set firmly into a solid wooden frame. Tinted safety glass and a magnetic door catch come as standard.

Grand Luxe sauna room with outside walls in a stained finish and optional glazed sections 52 and 52 VENT

Inside, the sauna is generously appointed with two broad benches in a split-level design, skirting panels to screen off the gaps between, and an attractively contoured backrest concealing sauna lighting – all in elegant, slender strips of wood.

The tasteful combination of traditional style and coordinated materials ensures that the Grand Luxe sauna blends into most domestic environments. And, with so many sizes to choose from, you're sure to find one that's ideal for your home.

Grand Luxe rooms come in 16 sizes (see floor layout plans on page 44). All are designed to be placed in an existing corner

and have two outer walls finished in covering panels. If you want to personalise your sauna room, you can choose a different door, glazed sections, wall sections with aspen panels inside and out, and a variety of interior fittings from our range of accessories (pages 46–53). Choose Grand Luxe Special if you want to finish the outside of your sauna in tiles or other materials that match the rest of your bathroom décor. It's as versatile as your imagination.

To make sure you choose a sauna heater with the right output, please refer to the information adjacent to the relevant floor plan.

**THE GRAND LUXE STANDARD PACKAGE INCLUDES:**

Thermally insulated wall and ceiling sections with aspen panelling • Sauna door (DGP) in glass with wooden frame • Interior fittings in slender strips of aspen • Light fittings for placing behind the backrest • Transformer • Aluminium floor frame • Corner/ceiling mouldings • Air vents and assembly hardware

**THE GRAND LUXE SPECIAL PACKAGE INCLUDES:**

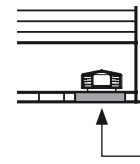

As above, excl. exterior panelling.

# Freedom of choice is yours – by design.

Here you have a bird's eye view of all our complete, prefabricated sauna rooms. You can see sizes, the correct location of the sauna heater and the layout of the interior fittings. All our sauna rooms can also be installed mirror fashion (except Vital Vision). You can also see which standard wall sections can be replaced by glazed sections. For the sake of clarity we also indicate the optimum heater output for each of the rooms.

All you need to do is measure, compare and decide which sauna room is the best for you.

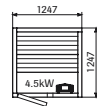

Wall sections shaded in dark grey can be replaced by glazed sections. (See description on pages 46–47.) Please state which wall sections you wish to replace with glazed sections when ordering your sauna room.

## Classic & Grand Luxe

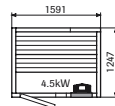

(External roof height 2010 mm for all models)
